OVERVIEW

Seeking a software development position to leverage the skills obtained throughout the DigitalCrafts 16 week Immersive Bootcamp program. Passionate for complex algorithm development and challenging problem-solving activities with code.

EXPERIENCE

Development Projects:

- **Leaflet interactive map game** GitHub Repo – <https://github.com/paigen11/frontend-project.git>
 - Created an interactive map game using the Leaflet API that took advantage of marker features and functionalities to simulate a canvas-like game experience with various weapons created to protect the city of Atlanta from a zombie infestation
 - Employed strong use of JavaScript, HTML and CSS as well as JQUERY, heavy use of the Leaflet API, mapbox.js and other Leaflet plug-ins.
 - Worked on a team of 4 developers following best practices in source control and SCRUM methodology.
- **Ecommerce site** GitHub Repo – <https://github.com/PirieD704/nodeEcommerce.git>
 - Fully functional ecommerce shoe site featuring three weekly choices of the best shoes around. Account features and payment functionality utilizing Stripe
 - Fully implemented MEAN stack with AngularJS framework comprising the front-end side of the application along with bootstrap styling components. ExpressJS, NodeJS, and MongoDB used for functionality and the back-end build.
- **Blackjack Game** GitHub Repo – <https://github.com/PirieD704/blackJack.git>
 - Blackjack game implementing Bootstrap for page layout with HTML/CSS implementation and JavaScript for functionality.
 - Game showcases a betting feature with proper sequence of cards being revealed as well as on-going bank calculation.

YP Marketing Solutions: Account Manager, April 2015 – June 2016

Responsible for developing effective marketing strategies that improve existing client relationships and generate new business leads to meet weekly sales quotas. Showed successful campaign management for multiple markets utilizing effective time-management skills and sound market strategies. Well-versed in creative and effective communication across market teams, customers, and sales-supporting roles.

Red Ventures: Inside Sales Representative, MetLife Insurance, February 2015 – April 2015

Successfully met sales quotas on a consistent basis and distinguished for exceptional performance

UPS: Office Manager, November 2014 - January 2015

Contract position for busy holiday season. In charge of coordinating and assigned 120+ per day to the necessary routes.

Boyne Resorts: Lead Server/Bartender/Line Chef, December 2012 - April 2014

In charge of training new line cooks for the Fondue Stube. Also managed team of two servers and one bus boy in front-of-the-house operations.

David Pirie

Full Stack/Software Developer

Providence Road Sundries: Line Cook, June 2012 - December - 2012

Handled multiple stations during busy hours and received one raise during employment

EDUCATION

DigitalCrafts Atlanta, GA – 2016

16 Week Immersive Bootcamp: Full-Stack developer in 16 week immersive bootcamp. Emphasis placed on learning JavaScript and JavaScript frameworks as well as the MEAN (MongoDB, ExpressJS, AngularJS, NodeJS) and LAMP (Linux, Apache, MySQL, and Python) stacks. Worked on group and individual projects on a daily basis.

Additional Credit Hours: Physic 1101 & 1102 Summer Session 2014

Shadow Time 2013 - 2014: 150 hours following Dr. Leslie T. Webster of CMC-Pineville with over 40 surgeries witnessed. Evaluated patient management and daily logistics of general surgery at a level-one trauma center.

Appalachian State University Boone, NC – 2006-2011

Bachelor of Science: Psychology – Minor: Chemistry

EMT-Paramedics Certification Course - 2008 - 2011
